

## ***Mount Hutt College***

Mount Hutt College is a state, rural, coeducational Year 7-13 school of about 480 students. It is set in attractive grounds in Methven, not far from Mt Hutt ski field, and serves a predominantly rural community.

A District Bus Scheme provides transport for about half of the school's population, and the school has grown rapidly in recent years. In 2007 an Enrolment Scheme was implemented at the direction of the Ministry of Education.

A full range of curricular and extracurricular activities occur in the school, which has a tradition of performing well in all areas of its operation – academic, cultural, sporting and social – strong community links support all school activities, and an Outdoor Pursuits Course for Year 12/13 students from around the country has become a feature of its culture.
